SPECIAL PEONY LIST  
FALL 1927

# PEONIES

We are again digging a large block of Peonies (about 70,-000 plants) and in order to dispose of the surplus we are making the following

## Very Special Prices

Plants offered are strong, healthy, three to five eye divisions from thrifty three year old clumps.

Six to nine eye clumps, extra heavy, at twice the price of three to five eye divisions.

Do not confuse our grade with the two to five eye plants that are sometimes offered, which we consider too small to plant. Most of our plants will make two of this latter size.

We have endeavored to eliminate all objectionable varieties, and believe every Peony in this list is a worth-while sort. Note the general high rating of this collection.

### 50 Plants at the 100 Rate

### 250 Plants at special prices

Rating	Variety	Per 10	Per 100
